## **Petition on Ensuring that every effort is made to keep Western Australia Cane Toad free**

**To the Legislative Council of the State Parliament of Western Australia**

**To the President and Members of the Legislative Council of the Parliament of Western Australia assembled.**

We, the undersigned residents of Western Australia ask that the Legislative Council consider the effects that the imminent invasion of cane toads into Western Australia will have on the cultural, economic, environmental and social values of the peoples, communities and habitats of Western Australia.

**Your petitioners, therefore, respectfully request the Legislative Council:**

- 1) Establish what methods exist or are under study nationally for the containment or eradication of cane toads;
- 2) Investigate all methods of physical restriction of cane toads into Western Australia;
- 3) Make recommendations as to the most effective short- and long-term strategies for preventing cane toads from becoming established in any part of Western Australia

**And your petitioners as in duty bound, will ever pray.**
